EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Gutttag on 4/5/2006.

The application has been amended as follows:

Claim 7. (cancelled)

Claim 8. (cancelled)

Claim 9. (cancelled)

Claim 10. (cancelled)

Claim 11. (cancelled)

Claim 12. (cancelled)

Claim 13. (cancelled)

Claim 14. (cancelled)

Claim 15. (cancelled)

Claim 16. (cancelled)

Claim 17. (cancelled)

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:

a. Species 1: Figures 1-6 (Claims 1-6)

Art Unit: 2883

b. Species 2: Figures 7-8 (Claims 7-17)

The species are independent or distinct because they claim two different means for latch release. One having a first and second cam and another having a separate cam for lifting a spring member.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. During a telephone conversation with Mr. Mark Gutttag on 4/5/06 a provisional election was made without traverse to prosecute the invention of Species 1, claims 1-6. Affirmation of this election must be made by applicant in replying to this Office action. Claims 7-17 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to explicitly disclose or reasonably suggest a first and second cam member on first and second arms, respectively. Said cams lifting a proximal end of a rocket to cause a tab to retract from a locking position. Therefore, claims 1 and 3 are allowed. Claims 2 and 4-7 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

c. United States Patent Number 6,872,010 to Bianchini.
